

Early Greek Philosophy & Other Essays (Version 2)

Early Greek Philosophy & Other Essays (Version 2)
Friedrich Nietzsche
Translated by Maximilian August Mügge

Early Greek Philosophy & Other Essays (Version 2)

"The essays contained in this volume treat of various subjects. With the exception of perhaps one we must consider all these papers as fragments. Written during the early Seventies, and intended mostly as prefaces, they are extremely interesting, since traces of Nietzsche's later tenets—like Slave and Master morality, the Superman—can be found everywhere. But they are also very valuable on account of the young philosopher's daring and able handling of difficult and abstruse subjects. "Truth and Falsity," and "The Greek Woman" are probably the two essays which will prove most attractive to the average reader." - Summary by Maximilian Mügge, Translator
